Young Politician: "Mr. Wanamaker, I suppose there will be a number of positions vacant in your department and I should like to enter my application for one of them." The postmaster-general: "I am not so sure about 'positions,' but there will, I think, be plenty of chances for work." Young Polititirn (with dignified diagust): "Work? Who's asking for work? Good-day, sir."

Aunt Agnes: "Well, Ethel' I hear you're studying English history. Have you got as far as the Crusades, yet?" Ethel: "Yes." Aunt Agnes: "Then can you tell me what a pilgrim was?" Ethel: "A holy tramp."

Mrs. De Societe is up stairs, dressing for the ball. From below Mr. De Societe calls to her. He: "My love, are you never con-ing?" She: "Oh, gracious! I can't find the bothersome waist to this dress anywhere!" He: "Well, come without one. Nobody will ever notice it."

Miss Britely: "Do you like pork chops for breakfast, Mr. Nevergo?" Mr. Nevergo: "Pork chops? Oh, ah, yes, very much in-deed." Miss Britely: "If you'll excuse me a moment I'll tell mama to get some. think I hear her going to the market.

A little girl was taught to spell cat, and one day soon after she came rushing up to her aunty, exclaiming: "Oh, Nantie, I've found a piece of cat!" She had found the

Smith: "Jones, why in the world don's you get married?" Jones: "On account of my business. I'm a floor-walker, you know and cound't stand that kind of thing night and day, too."

Agricultural editor to foreman: "By the Agricultural editor to foreman: "By the way, Sluggins, are cabbages raised from seed or grafted?" Sluggins: "I don't know, I don't smoke." A. E.: "All right, I'll make a paragraph for our notes and overier."

"Darling, you promised to give me a lock of your hair in return for the poem I wrote to you; but I see now that this lock did not come from your head." It is quite appro-priate then; the poem was not from your head, either."

New boarder: "It strikes me these bisquits are tough." Mrs. Bazoo (the landlady): "Young man, I made those biscuits, and I've made them before you were born." New boarder (unabashed): "I don't doubt it ma'am; but why don't you keep them in the curio cabinet? Aren't you afraid somebody might break them?"

"No, Mr. Meredith, you must put away this madness. I can never, never be yours; there is an insurmountable obstacle." "Do not say so! Tell me what this insurmountable obstacle is, love, that I hay crush it as I would a worm in my path." "It's a husband in New York."

Bingley: "Well, have you patented any-thing lately?" Inventor: "Oh, yes, I have just received letters patent for my new 'prize fight suspender button.' Biggest snap of the century." Bingley: "What makes you call it the 'prize fight?" Inventor: "It never comes off."

"Just stop and think what you will come to be in the eyes of your fellow men," said the temperance missionery at the jail. "Now what do you yourself think of a man who is drunk all the time—never draws a sober breath?" "He must be a millionaire or else mighty lucky." mighty lucky.'

"Do the Upstarts, of Philadelphia belong to the best society there?" "The best soci-ety! Bless your innocent heart, of course they do! Why, many and many a moonlight night I've seen their cats and Biddle's cats howling on the same fence."

CHENEY & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of CATARRH that cannot b) cared by the use of HALL'S CATARRH CURE.

Sworn to before me and substribed in my presence, this 6th day of December, A. D. '86

Hall's Catarrh Cure is taken internally and acts directly upon the blood and mucus surfaces of the system. Send for testimonials, free. F. J. CHENEY & CO., Tolado, O. SEAL

#### KANSAS STATE NEWS.

G. W. C. Rohrer, of the Salina Gazette, has been in Chicago over two months, engaged in "a big deal," his paper savs.

Osawatomie Graphic: A petition is being circulated to call an election to vote \$10,000 in bonds to erect a fine brick school house.

Junction City Union: John W. Thornton died at Lawrence recently. In the Quantrell raid on that town in 1863, he received seven bullet wounds

Wamego Agriculturist: Samuel Mallison was in the city giving instructions for the repair of the round house here. A new roof will be put on and probably the additional stalls.

Edmond Times: The wild plun trees are a perfect mass of flowers, and if the yield of fruit is in proportion to the bloom there will be a vast quantity of this fruit next fall.

Udall Record: The Santa Fe called on the Udall mills for a thousand gunny sacks, to be filled with sand to stop the high water from cutting the bank at Purcell. They were sent promptly.

The sum of \$222,052.39 will be available after July 1st to pay the citizen Pottawatomies, a certain claim allowed by the last congress. The amount due each member of the tribe is about

Washington Register: A petition is being circulated in the city and generally signed, asking the council to submit to a vote of the qualified electors the ques tion of the city buying and running the electric light plant.

Kincaid Dispatch: Mr. Brown, o Mound Valley, has purchased the wal-nut timber on the Caldwell land, and is cutting and hauling logs to the depot, preparatory to shipment. The logs are very fine and will be shipped to Europe.

Paola Republican: The Odd Fellows recently received a complete outfit of new paraphernalia. It is very beautiful and rich in material, the total cost being nearly \$500.

By wire from Medicine Lodge: vere hail, wind and rain storm struck this city, doing coesiderable damage at Isabell, a town of 200 people, fifteen miles north of Medicine Lodge. The wind demolished five houses and moved a number off foundations. Crops are injured by the hail.

Paola Republican: A number of our young men met last Friday night and organized a military company. There were about twenty-five present and all took a deep interest in it. Paola can well support a good company, and with the proper aid of our people this will soon be a first-class organization.

Junction City Union: In May, Mr. George W. Winans, state superintendent will begin a series of articles in the Western School Journal. In the articles for July, August and September, he will commend, criticise and comment upon institute work as observed and noted by him in his inspection of institutes during the summer.

Beloit Gazette: The examination of John Franz, on the charge of having hired boys to burn the Myers' drug store building took place before Squire Young. After the evidence for the state was in the defense declined to call in any witnesses, and Franz was bound over to the district court in the sum of \$2,000. Knight for the state, Ellis & Bailey for the defense.

Kingman Leader: The enterprising citizens of Valley township have not abandoned either their salt or sugar projects. Though they are too late to utilize the latter this year, they will perfect their plans and construct works in time to make a full and complete season next. Glenn O'Brien has made a close study of both enterprises, and believes they can be made a success.

Parsons Clarion: The Union depot project is the next to agitate. We have three depots in Parsons, all within a stone's throw of one another. By moving them all over to where the M. K. & T. freight depot now stands, a union depot could be built and the road on the east and the road on the west could be brought to it with but little trouble and expense.

Arkansas City Dispatch: Have the boomers left any money in Arkansss City? Well, figuratively speaking, we smile and say, yes. On going to the banks this morning and finding from reliable sources that a quarter of a million dol-lars had been left deposited here for safe keeping. While our merchants have di-vided among them something near two hundred and fifty thousand more.

Kincaid Dispatch: There was a mas meeting of the citizens of our town, pre-sided over by Mr. K. P. Blood, to talk up the matter of building a new and more commodious school building, the necessity of which is apparent to all. It seems to be the general opinion of those present that in view of the future outlook of our city, that the kind of a building needed could be built for \$3,500 or \$4,000.

Cubs Pilot: A remarkable case oc cupied the attention of the Smith Center court. A married man named Clemmons entered the war, passed through war, and after his discharge, instead of informing his wife of his whereabouts, he came west and took a claim and married again. Afterward he became insane and died. Wife No. 2 sold the farm. Wife No. 1 appeared, set up her claim and the court rendered judgment in her favor.

Junction City Union: It will be reembered that on the 4th of July last, A. C. Pierce's creamery on his farm at the head of McDowell creek in Jackson township was destroyed by fire. For various reasons Mr. Pierce has since taken no steps toward rebuilding, but now he has secured a gentleman who remedied it will will operate the creamery, and the work lars into the poor rebuilding was commenced this week.

The work will be pushed as rapidly as possible and they hope to be able to re-ceive milk in less than thirty days. The building is 26x42, with an addition of 26x26. The machinery was but little damaged. The creamery will have a capacity of 17,000 pounds of milk per day. In the vicinity of the creamery there are about 500 cows.

El Dorado Republican: As remarks have been made about the failure of an old soldier to get the El Dorado postoffice we wish to say that James C. Rodgers' father enlisted in the three month service in '61, and served his time as a private. He re-enlisted for three years, served three years, was promoted captain, went with Sherman to the sea, and died within a year after the war from the hardships, leaving James an orphan of fourteen years.

Sterling Gazette: Twelve new recruits have been mustered into service at the regular meeting of Co. "H." The company now has sixty names on its muster roll, all of which, with the exception of three or four, are in reach in case they were to be again called into This is the first time since the limit of membership was changed from forty to sixty that the company has been full, and we shall expect to see the boys do credit to themselves in proportion to their numbers.

Salina Journal: The mortgager, M. R. Moser, took possession of the material of the Republican office, moving it into A. G. Welcher's job office. The Campbell newspaper press was not included in the mortgage, and this becomes the basis of an entirely new office. the needed type being ordered from the Kansas Newspaper Union, Topeka, by telegram. Without missing a single issue the Daily Republican goes on. The Republican folks certainly possess grit, and if grit is sure to win, the Republican must win.

Junction City Union: The newspaper men over the state are just begin ning to realize that Fort Riley stands in the center of the Universe, three miles from Junction C.ty, Kansas. Fort Riley is the greatest military reservation in the world, containing 20,000 acres, with a post for a cavalry, artillery and recruit training school for 1,500 men and as many horses, and a horse breeding station for the entire army of the United States. It will have a yearly pay roll of \$1,200,000, and require a city of of 125 buildings at an average cost of \$15,000, or \$1,875,000, of which amount \$500,000 have been expended; \$215,000 are on hand to be used in 1889, and enough work left to keep 600 laborers steadily employed for six years. The entire post is now furnished with water by a system of water works; drained by a system of sewerage; heat ed by steam from one boiler house; lighted with electric lights, and provided with good walks and drives.

El Dorado Republican: On the 15th of June the Kansas state normal will hold its twenty-fifth annual commencement. It is the purpose of the faculty to make this silver anniversary of the institution an occasion of rare interest. The programme will include a history of the normal, and other special exercises of an appropriate character. A novel feature will be sketches of the eighteen students who assembled in the old stone school house on Constitution street, in Emporia, on the morning of the opening of the normal a quarter of a century ago. All of these, with a sin-gle exception, have been heard from, and some of them will be present. The first alumni of the normal—class of '67 -were Miss Ellen Plumb, of Emporia, sister of Senator Plumb, and Mrs. Dr. Short, of Trenton, Missouri, both of whom expect to be in attendance at the commencement in June. The normal this term has an enrollment of 800, and may well point with pride to its humble beginning.

#### STOCK AND FARM.

Winchester Herald: There are hundreds of tons of hay left over in Jefferson and Leavenworth counties.

Coldwater Review: S. S. DeLair states that he has 60 acres of corn which is up and will soon be ready to cultivate. He also says he has 50 acres of as fine wheat as he ever saw. Mr. De Lair is a man who is never idle and in consequence has made a big success of farming in Comanche county.

Cedar Vale Star: Wm. McCarty has 150 acres of corn planted, thanks to the help of his girls, and he thinks his girls will do more work with a riding plow than anybody's boys, and we rem hearing Herbert Brown bragging about the help he gets from his girls. That is evidently a good neighborhood up

Summerfield Sun: Some excitement was caused by the "bulls and bears" of Summerfield bucking each other in the corn market. The farmers took advantage of the raise in prices and rushed in their spare corn, receiving three cents more per bushel than grain bayers were paying in surrounding towns. We understand there is still quite a rivalry exist-ing between buyers here.

Shockeyville Plainsman: men of this year's growth of alfalfa from the farm of Wm. Humphreys has been left at this office. It is about 14 inches high and shows what can be done in Southwest Kansas without irrigation. Some people imagine that alfalfa, to be a success, has to be grown under the ditch, but a glance at Mr. Humphrey's field will convince any one that it can be profitably grown on our highlands.

Kinsley Mercury: The Santa Fe officials have notified their agent here that everything possible is being done by the various railroads in Kans make an agreement that will give the farmers the benefit of corn rates on mel-

ons. This is one of the greatest me producing countries on the globe, but the trouble has been that the freight rate has been so excessive that there was no profit in them. If this matter is remedied it will put thousands of dollars into the pockets of our Edwards of citizens are unanimous in the in-ent of Salvation Oil, the great cure imatism. It is un-American in the higher sense for our people to prate about Europe so glibly when so many of them are so profoundly ignorant of the wondrous beauties of their native land. As a matter of fact there are hundreds of thousands of American citizens who are thoroughly familiar with Switzerland; who have idled away weeks at Lucerne, done Chamouni, and attempted the Matterhorn, and yet have never feasted on the lovely beauty, the wild weird majesty of any one of the Colorado Peaks. "More than Alpine glory" rewards visitors along the South Park Division of the Union Pacific in Colorado. There is no scenery like it in the new There is no scenery like it in the nev
